

The all-round BACnet building management solution.

Building automation

Open system safety continuous communication with BACnet modularity, products for the field level automation level and management level

Valve and Actuator

VDL-Balancing Valve

UVC-eValveco Energy Valve

Pressure-Temperature Sensor, Switch & transmitter

Dehumidifier

Our broad range of efficient condensation and desiccant industrial and commercial dehumidifiers enables us to offer impartial advice on finding the right drying solution for a variety of applications. Offering complete humidity control, our solutions are either portable, wall-mounted or floor-standing. Discover our range of professional dehumidifiers and speak to an expert today.

Product Type:

- Adsorption Dehumidifiers

Used in environments where they are required humidity values even at low temperatures and constant values dew point very low (up to -60°C).

- Condensing Dehumidifiers

More efficient at medium to high temperatures and under conditions of high relative humidity (greater than 40%).

- Air Conditioning

Portable evaporative coolers provide a versatile and efficient solution for cooling air by exploiting the basic principle of water evaporation

Anywhere that you can use exposed sheet metal ducting, you can achieve savings and design advantages by switching to fabric ducting

The versatility and flexibility of a FabricAir Dispersion System is greater than conventional metal solution

Important Key of **FabricAir** Dispersion System :

- No condensation problems
- Even air distribution
- Fireproof materials
- Excellent sound-technical properties
- Hygienic and easy to maintain
- Faster and cheaper installation than conventional ducting

Produal & HK Instruments

Produal is dedicated to providing top-tier building automation and HVAC solutions in collaboration with you, the customer. HK Instruments' innovative products now complement our portfolio, expanding and enhancing our capabilities.

Room controllers

We manage the invisible. Together

Transmitters
